WALU ROLL ABOVE-GROUND

Automatic slatted covers

+ POINTS

100% safety

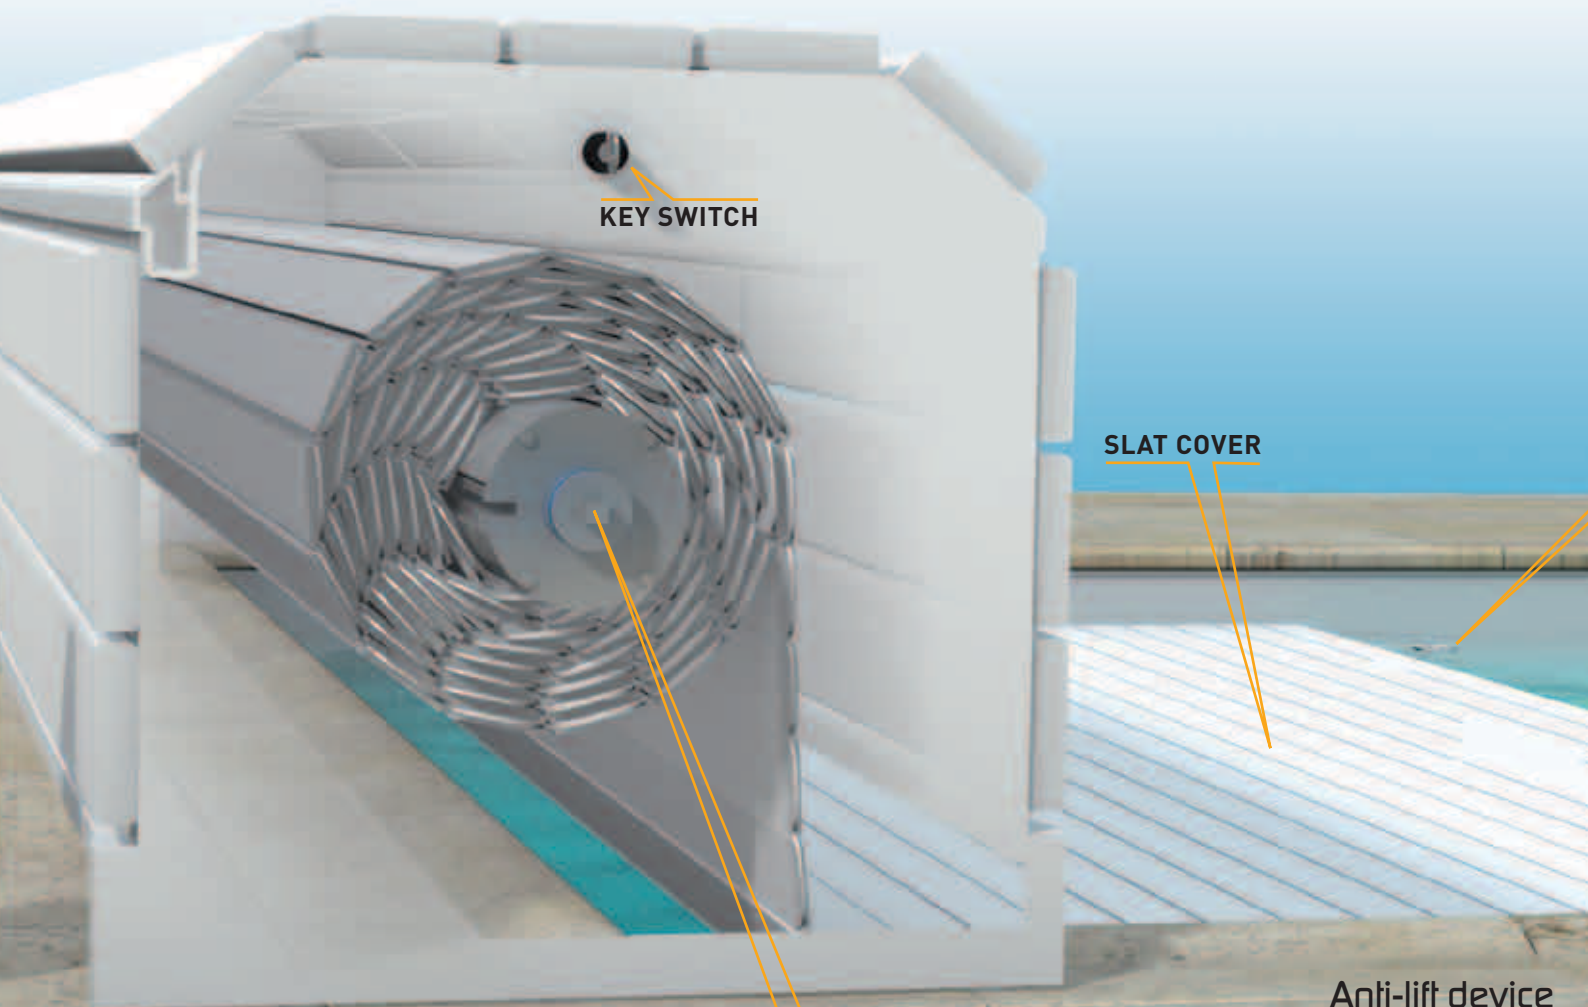

Locked by key, this safety cover prevent the pool access for children under 5 years old.

Aesthetic appearance

Take advantage of your full terrasse with the integrated submerged mechanics. Your slatted cover is made to measure following the pool's size, included steps, in the color of your choice.

Remarkably easy to use

The winding and unwinding of WALU ROLL slatted covers are completely automated. The end-of-travel-control are integrated and the power supply can be electrical or due to solar panels.

You said economy?

WALU ROLL reduce the evaporation and keeps the heat of the water. You can take advantage of your pool much longer while reducing heating costs.

WALU ROLL slows down the development of algae and pollution: you will need less treatment products and decrease the maintenance budget of your pool.

In case of an inside pool, the cover avoids condensation on the infrastructure and reduces the functioning time of the dehumidifying station.

OPAQUE SLATS:

Opaque slats with fins:

Opaque slats with brushes:

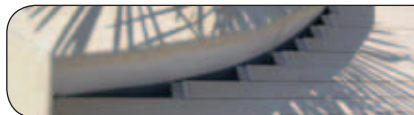

The welded blanking caps provide sealing at each end of the slat. Interchangeable fins or brushes ensure finition and aesthetic. The patented brushes minimize pool debris, fill the functional clearance between slats and pool wall and clean the water line during the opening and closing of the cover.

SLATS CUT OUTS:

The cut out of your cover can be realized either smooth or stepped cut out.

Smooth finish

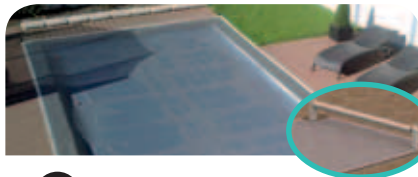

Stepped finish
